**PATRAS**  
ΠΑΝΕΠΙΣΤΗΜΙΟ ΠΑΤΡΩΝ

DEPARTMENT OF PHARMACY

SCHOOL OF HEALTH SCIENCES

UNIVERSITY OF PATRAS  
SCHOOL OF HEALTH SCIENCES  
DEPARTMENT OF PHARMACY  
POSTGRADUATE PROGRAM: **DRUG DESIGN AND DEVELOPMENT**

COURSE TITLE: PRECLINICAL AND CLINICAL DRUG EVALUATION  
CODE: DPHA\_4

**PRECLINICAL AND CLINICAL DRUG EVALUATION  
COURSE OUTLINE**

**1. GENERAL**

<b>SCHOOL</b>	HEALTH SCIENCES		
<b>ACADEMIC UNIT</b>	DEPARTMENT OF PHARMACY		
<b>PARTICIPATING INSTITUTIONS</b>	-		
<b>TITLE of POSTGRADUATE PROGRAM</b>	DRUG DESIGN AND DEVELOPMENT		
<b>LEVEL</b>	POSTGRADUATE		
<b>COURSE CODE</b>	DPHA-4	<b>SEMESTER</b>	A'
<b>COURSE TITLE</b>	PRECLINICAL AND CLINICAL DRUG EVALUATION		
<b>INDEPENDENT TEACHING ACTIVITIES</b>	<b>WEEKLY TEACHING HOURS</b>	<b>CREDITS</b>	
Courses	5	8	
<b>COURSE TYPE</b>	<p><u>General Knowledge:</u> Revision and analysis of basic concepts, in order to obtain a background “harmonization” of students with varying undergraduate degrees.</p> <p><u>Scientific field:</u> In-depth understanding of the Approaches and Methods in Preclinical and Clinical Drug Development.</p> <p><u>Development of Skills</u> in critical evaluation and synthesis of experimental (and other) data.</p>		
<b>PREREQUISITE COURSES</b>	<p>Not required.</p> <p>However, the successful enrolment in the course supposes important pre-existing knowledge and background in (among others) Biochemistry, (Patho)Physiology and Cell/Molecular Biology.</p>		
<b>LANGUAGE of INSTRUCTION and EXAMINATIONS</b>	<p>Greek.</p> <p>However, a large part of lecture material, scientific articles and final exam questions are in english.</p>		
<b>COURSE OFFERED to ERASMUS STUDENTS</b>	Yes		
<b>COURSE (URL)</b>	<a href="http://www.pharmacy.upatras.gr/images/DS/DPHA_4_EN.pdf">http://www.pharmacy.upatras.gr/images/DS/DPHA_4_EN.pdf</a>		

**2. LEARNING OUTCOMES**

<b>Learning Outcomes</b>
<p>Understanding of a variety of basic concepts, methodologies and approaches (and of their combination) used in the Preclinical and Clinical Evaluation of bioactive compounds.</p> <p>Development of ability for Critical Thinking in the evaluation of literature, methodology, approaches, results and conclusions.</p>

Independent analysis and synthesis of experimental and other data (e.g. from publications), enabling the extraction of conclusions.

Development of the skills required for oral and written presentation and argumentation, based on experimental and/or clinical data.

Acquisition of the ability to plan the appropriate experimental methodology and approach in order to evaluate and develop bioactive compounds for the treatment of a specific disease (problem solving).

#### General Competences

- Search for, analysis and synthesis of data and information, with the use of the necessary technology
- Adapting to new situations
- Decision-making
- Working independently
- Team work
- Working in an international environment
- Working in an interdisciplinary environment
- Criticism and self-criticism
- Production of free, creative and inductive thinking

### 3. SYLLABUS

#### LECTURES

Basic pharmacological and biochemical terms and definitions characterizing compound bioactivity ( $EC_{50}$ ,  $IC_{50}$ ,  $K_m$ , etc).

Biochemical, immunological and immunochemical methods used to evaluate the activity of compounds in vitro.

In vitro cell-based and organoid-based models for the identification and evaluation of bioactive compounds.

Use of organs-on-a-chip in the preclinical evaluation of bioactive compounds.

In vivo experimental models used in the preclinical evaluation of bioactive compounds.

Regulatory framework of preclinical research in animals.

Preclinical data (ADMET) requirements for entering into clinical studies.

Regulatory framework of clinical drug development.

Regulatory processes and mechanisms of drug approval.

Regulatory framework for the approval of drugs with pharmacogenomic biomarker labeling (Companion Diagnostics).

Monitoring of drug safety – Pharmacovigilance.

## 4. TEACHING and LEARNING METHODS - EVALUATION

<b>DELIVERY</b>	Face to face						
<b>USE of INFORMATION and COMMUNICATIONS TECHNOLOGY</b>	Extensive use of E-class to share archives and lectures, to communicate with students and to organize the lecture schedule.						
<b>TEACHING METHODS</b>	<table> <tr> <td><b>Activity</b></td> <td><b>Semester Workload</b></td> </tr> <tr> <td>Lectures from Faculty and presentations by students based on processing assigned material and on analysis of scientific literature</td> <td>200</td> </tr> <tr> <td><b>Course Total (25 hours of work-load per ECTS credit)</b></td> <td><b>200</b></td> </tr> </table>	<b>Activity</b>	<b>Semester Workload</b>	Lectures from Faculty and presentations by students based on processing assigned material and on analysis of scientific literature	200	<b>Course Total (25 hours of work-load per ECTS credit)</b>	<b>200</b>
<b>Activity</b>	<b>Semester Workload</b>						
Lectures from Faculty and presentations by students based on processing assigned material and on analysis of scientific literature	200						
<b>Course Total (25 hours of work-load per ECTS credit)</b>	<b>200</b>						
<b>STUDENT PERFORMANCE EVALUATION</b>	<p>Written exam comprising questions requiring short or extensive explanations, multiple questions and problem solving.</p> <ul style="list-style-type: none"> <li>- The exam and answers are given in greek, but the initial material of the problems may be in English (e.g. data from a scientific publication).</li> <li>- The exam takes place with "open books" ("material"), i.e. all students have access to all the class' scientific content (lectures, articles etc), which they have received or downloaded throughout the semester.</li> <li>- During the exam, the students have no access to the internet.</li> </ul>						

## 5. RECOMMENDED BIBLIOGRAPHY

**Related Academic Journals:**

Access / use of scientific journals, preferably wide-circulation ones including (non-exhaustive list):

- Nature and all Nature journals
- Science and all Science journals
- Cell and all Cell journals
- Annual Reviews series
- Journal of Clinical Investigation
- PNAS
