INTRODUCTION

International Pharmacy Summer School 2026 (IPSS 2026) is the 12th pharmacy summer school in Indonesia and an annual event organized by the Faculty of Medicine and Health Sciences of Universitas Muhammadiyah Yogyakarta, Indonesia. It will be held on July 1st – July 9th, 2026, at the Universitas Muhammadiyah Yogyakarta. It is a unique summer school program combining academic and student activities. The goal is to enable participants to interact and work with relevant professionals, gain more information about the herbal remedies available in Indonesia, as well as various interesting travel experiences and memorable cultural learning about Indonesia. IPSS 2026 has so many exciting activities, including educational and non-educational. The educational activities involve **“FROM ROOTS TO REMEDIES : EXPLORING INDONESIAN JAMU FOR GLOBAL INNOVATION”**. Participants will get lectures from experts and professionals. Participants also have other educational activities, such as IPE (Interprofessional Education), tutorials, laboratory activities, and Pharmacy Social Activity. The nonacademic activities involve visiting many cultural places in Yogyakarta, such as the Fort Vredeburg Museum, Prambanan Temple and Beach. Through this event, we hope you can explore new insights and find new relationships to help you face the pharmaceutical world. We hope you can participate in this event and enjoy the beauty of Indonesia.

Best Regards,

Committee of IPSS 2026

INDONESIA AND YOGYAKARTA

Republic of Indonesia is a country in Southeast Asia, located on the equator and between the Asia and Australia continents and between the Pacific and Indian oceans. Indonesia, since it lies between two continents and two oceans, is also known as the Archipelago Islands. Consisting of 17,508 islands, Indonesia is the largest archipelago in the world that spreads from Sabang to Merauke. The country is passed by the equator line, making it has a tropical climate with two seasons, dry and rain season. The tropical climate makes Indonesia has one of the greatest biodiversity in the world, the second after Brazil. You can find some biodiversities, anything from rain forests, great lakes, long rivers, high mountains, amazing under-water corals, etc., in Indonesia. Each corner in Indonesia has a lot of exciting things.

The borders of the country include Malaysia on Borneo Island, Papua New Guinea on Papua, and East Timor on Timor Island. Other neighboring countries include Singapore, Philippines, Australia, and the union territory Andaman and Nicobar Islands in India. Indonesia, from Sabang to Merauke, consists of distinct ethnics, linguistics, and religious groups. Java is the largest tribe and most politically dominant. Indonesian national motto, “Unity in Diversity”, represents the country.

Indonesia has 38 provinces, including Yogyakarta (or locally called Ngayogyakarta Hadiningrat). Yogyakarta is one of famous provinces in Indonesia, not only known well by local, but also international tourists because of its nature and culture. Yogyakarta was founded by Prince Mangkubumi (Sultan Hamengku Buwono I) in 1755 as a result of Giyanti Agreement. It grew up into a city rich in Javanese cultures and arts. The centerpiece of the development of art and culture is the empire. A variety of classical Javanese arts, such as dances, songs, geguritans, gamelans, paintings, literatures, and carvings, were developed from the palace. Later, the arts become folklores. The unity of the community and artistic values is strong, making Yogyakarta never runs out of trained artists. In addition to cultures, ancient architectural treasures, such as Water Castle, Sultan Palace, Pakualaman Palace, Prambanan Palace, and various Museums, also have their own 4 magical things for the tourist, both local and international. These entire exciting things make Yogyakarta becomes the second primary regional tourism destination.

UNIVERSITAS MUHAMMADIYAH YOGYAKARTA

Universitas Muhammadiyah Yogyakarta (UMY) is a university in Yogyakarta, one of Indonesia's most beautiful cultural cities. UMY is one of the universities owned and managed by the "Center of Muhammadiyah Council," one of the religious mass organizations in Indonesia. UMY was founded on March 26th, 1981. It has seven major faculties: Faculty of Islamic Religion, Faculty of Economy, Faculty of Law, Faculty of Social and Political Sciences, Faculty of Medicine and Health Sciences, Faculty of Agriculture, and Faculty of Engineering.

UMY is one of the top private universities in Indonesia, accredited as "Excellent" by BAN PT. It ranks 1201-1400 globally, 561-580 in Asia, and 94 in Southeast Asia according to QS Rankings 2025. Renowned for its high-quality academic programs, UMY offers Medicine and Pharmacy, both holding "Excellent" accreditation. The university is also active in research and innovation, earning prestigious awards like the SINTA Award and QS Star Ratings for Facilities, Teaching, and Institution. With a supportive learning environment and diverse student backgrounds, UMY embodies its tagline "Worldwide Youth", fostering globally minded graduates with strong local impact.

International Pharmacy Summer School

IPSS PROGRAM

A. Event Overview

IPSS (International Pharmacy Summer School) is an annual event organized by the Pharmacy Study Program, Faculty of Medicine and Health Sciences of Universitas Muhammadiyah Yogyakarta, Indonesia. This year is the 11th time this program has been held. This program will combine academic and non academic experiences to introduce the learning process of the UMY pharmacy study program to domestic and international students. Some of the programs offered by this event are:

- **Educational Program**

1. **Stadium General**

General stadiums are public lectures filled in by professional lecturers who discuss topics according to the event's sub-themes to broaden participants' knowledge.

2. **Tutorial**

Class discussion by a teacher (tutor) for a student or a small group of students to discuss and resolve a pharmaceutical case.

3. **Interprofessional Education**

Practice collaboration between two or more professions health that learns from each other's roles and perspectives of other health professions as outlined in a case discussion. This activity aims to improve collaboration skills and the quality of health services.

4. **Laboratory Activity**

Activities in practice or application of pharmaceutical theory, especially in making herbal cosmetics.

5. **Tour de Faculty**

Activities that invite participants to go around and get to know the facilities and infrastructure of the Pharmacy Study Program, Universitas Muhammadiyah Yogyakarta.

6. **Pharmacy Social Activity**

Social activities in the form of visits to schools in Yogyakarta. This activity aims to introduce the pharmaceutical profession and provide

information to students regarding herbs or other relevant topics.

7. Assessment

The computer-based exam uses Multiple Choice Questions (MCQ), which aim to test participants' understanding of the material during the activity.

• Non-Educational Program

1. Welcoming and Closing Ceremony

The welcoming ceremony symbolizes welcoming participants and opening the event symbolically. This activity will be held with a typical Yogyakarta culture as a cultural introduction to participants.

2. International Night

IPSS facilitates the cultural exchange of each country of the participants by introducing traditional food. This event is designed to be warm and is expected to strengthen the relationship between participants.

3. Learn Indonesian and Sharing Time

Activities introducing Indonesian and Javanese as a means of introducing culture to participants. Participants will also present their respective languages and cultures to other participants.

4. Tour de Yogyakarta

This activity will visit various tourist attractions in Yogyakarta, packaged in natural and cultural tourism. In addition, participants were also invited to visit the natural product industry in Yogyakarta as a form of further learning.

5. Farewell Ceremony

This activity is the closing of the entire series of IPSS 2025 events. This activity includes symbolic closing, cultural performances and the IPSS Award.

B. Grand Theme

- Theme: **“FROM ROOTS TO REMEDIES : EXPLORING INDONESIAN JAMU FOR GLOBAL INNOVATION”**

- Sub Theme:
 1. Understanding herbal medicine and its development
 2. Phytochemical & Pharmacological Perspectives
 3. Manufacture and testing of herbal medicines

C. Event Schedule

Registration Dates:

1. First Phase : 24th January 2026 – 28th February 2026
2. Second Phase : 1st March 2026 – 4th April 2026
3. Third Phase : 5th April 2026 – 9th May 2026
4. Fourth Phase : 10th May 2026 – 20th June 2026

Event Date : 1st July 2026 – 9th July 2026

D. Credit Conversion and Syllabus

- Credit Conversion

INTERNATIONAL PHARMACY SUMMER SCHOOL

Type : English Taught

Credits : 2,73

Total Hours : 38

Instructor : Apt. Andy Kurniawan Saputra, M.Clin.Pharm

Description : International Pharmacy Summer School 2026 (IPSS 2026)

is the 12th pharmacy summer school in Indonesia and an annual event organized by the Faculty of Medicine and Health Sciences of Universitas Muhammadiyah Yogyakarta, Indonesia. It will be held on July 01st – July 09th, 2026, at the Universitas Muhammadiyah Yogyakarta. It is a unique summer school program combining academic and student activities. It aims to enable participants to interact and work with related professionals, get more information about herbal cosmetics and many interesting travel experiences as well as memorable Indonesian cultural learning. IPSS 2025 has so many exciting activities, including educational and non-educational. The educational activities involve **“FROM ROOTS TO REMEDIES : EXPLORING INDONESIAN JAMU FOR GLOBAL INNOVATION”**. Participants will get lectures by experts and professionals. Participants also have other academic activities, such as tutorials (Case discussion), laboratory activities, pharmacy social activity, interprofessional education, and visit Herbal Company. The non-academic activities involve culture session, games, and medical tour. It is hoped that this activity can introduce the Indonesian education curriculum, especially education at Universitas Muhammadiyah Yogyakarta and can also introduce Indonesian culture to all participants of the International Pharmacy Summer School.
